are you using the toggle internet settings once or twice? If you start the laptop and toggle before you connect to the VPN, you will need to toggle again to ensure that you can reach the intranet once you are on the vpn?

Subject: RE: Intranet via VPN?

I did still have the problem over the weekend. I tried on Saturday and on Sunday both BosVPN and GT VPN and could not reach the GT intranet site. Now instead of giving me a message that the site can't be reached, it gives me an internet search page that I have never seen before.
